

# POTSWAP with P2C™!

Converting phone lines to cellular has never been easier.

## Saving customers money means more profit for you.

P2C from Bongo Technologies reduces end-user customer costs by 50% on average!

EMERGENCY COMMUNICATION LINES

ELEVATOR LINES

AREAS OF RESCUE

TWO-WAY COMMUNICATION

## THE P2C DIFFERENCE:

- ✓ **Reliable Network** – P2C gets a signal when others can't.
- ✓ **Flexible** – Dual SIM supports all major cellular networks.
- ✓ **Compliant** – ASME A17.1 Compliant; E-911 Compliant; ADA, AMSI, IBC Code
- ✓ **99.9% Compatibility** – No rip and replace necessary. P2C is a takeover module that works with existing legacy equipment.
- ✓ **Superior Power** – 48 volts powers existing devices with ease.
- ✓ **Easy to Install** – Plug & play concept makes installation simple and streamlined. Installs in minutes!
- ✓ **Profitable** – Our dealer program was designed to increase your overall sales and company profit.

“What's great about the P2C from Bongo is there's no need to replace existing phone equipment. It's a true POTswap device providing the same phone line experience without the high cost.”

—JOHN, INSTALLATION TECHNICIAN, MARTIN SYSTEMS INC.
